UNIVERSITY

(Insert a picture of
your favorite spot in
your hostuniversity)

How were the courses?

The courses were interesting and stimulating, my favorite one was Quality Management

Were there any language barriers?

No, every course was served in English, and all the professors were available

Is there a contact person you can recommend?

The International Office of Mechanical Engineering was very fast in responding

you)

In general, public transport was very efficient and effective, and the DB app provided all the information needed.

For the nightlife in Dortmund, I can recommend the **Domicil**, a jazz club in the city center.

FINDING ACCOMMODATIONS

(Insert your apartment / Insert pictures of the website you found your apartment)

How was living abroad?

It was very exciting and new for me; it was my first experience, but it gave me the opportunity to meet new people and to make a lot of good memories

The apartment search was very easy and close to zero, the Studierenwerk Dortmund was responsible for everything. The rent was affordable and in general the house had no problems.

Welcome
Brunch

Student Bars

I recommend to study at the TU Dortmund because the services that the university provides are really high level, from the library to the sport faculty.

Also, the student dorms are really close to the campus, and they provide the creation of real bonds between the students. I have loved the life here.

WHAT I SAY
